M.D. State University of New York, Downstate Medical Center (Brooklyn), 1969
Postgraduate training: French Hospital Medical Center, Rotating Internship, San Francisco, CA, 1969 - 1970
Board Certification: American Board of Family Practice, 1978 - present (2011)

Professional Experience

- 1995 ó 2008 (retired) **Executive Director, Student Health Services, University of California Santa Cruz**
I was responsible for the operation of UCSC Student Health Services, caring for a student population of 15,000 and managing a health insurance program for graduate and undergraduate students. The student health program included Primary Care, Psychiatry and Counseling, X-Ray, laboratory, full pharmacy services, and an active Health Promotion department.
- 1987 ó 1995 **Director, University Health Services, Cornell University, Ithaca, N.Y.**
I directed a multidisciplinary staff of health care professionals providing care for the student population of Cornell University at the Gannett Health Center, with X-Ray, laboratory, physical therapy, counseling and psychological services, and an active Health Education department. I was also responsible for the Occupational Health needs of a large population of university staff, including the animal handlers at the College of Veterinary Medicine.
- 1977-1987 **Medical Director, Emergency Department, Espanola Hospital, Espanola, N.M**
Founder and Organizer - Espanola Emergency Physicians Group.
In addition to my full time practice as an Emergency Physician, I provided Medical Direction for the Rio Arriba County Ambulance Service, as well as New Beginnings, a private residential treatment center for substance abuse, located in Velarde, New Mexico
- 1973 ó 1977 **Private Medical Practice, Bolinas, California.**
During this period I was the only physician practicing in this somewhat isolated northern California community with an effective service population of 3,000. I made house calls, did my own in-office lab work, and had an opportunity to re-create a form of medical practice reminiscent of a bygone era.
- 1970 ó 1972 **Clinic Physician, White Bird Free Clinic, Eugene, Oregon**
Assistant County Health Officer, Lane County, Oregon
Part time Student Health Physician, Lane County Community College
After completing my training, I was one of the founding members of the White Bird Free Clinic in Eugene, Oregon, providing medical and outreach services to the burgeoning counter culture community in Eugene, while serving as an Assistant County Health Officer and seeing patients in the communicable disease clinic. During that period I also was on the part time staff of the Student Health Center at Lane Community College.
- Licensure: I hold current Medical Licenses in California, Oregon, New Mexico, New York
